$Or(p,\,g)$ "Or branches" are denoted by 3-tuples: [head branch1 $\overbrace{p-g}$

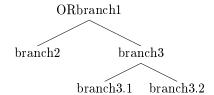

branch2].

"And" branches are coded with 2tuples, [head branch1].

Heads are denoted with leading dots.

Replace branch3 with [.branch3 branch3.1 branch3.2]:

 $\begin{array}{c} {\rm ANDbranch1} \\ | \\ {\rm branch2} \end{array}$

ANDbranch1 | branch2 | branch3

```
((a OR b) AND q)
compound proposition AND:
                                                     ((a OR b) AND q)
                                    (a OR b)
